## Forward

The Sixth Canadian Conference on Computational Geometry was held in Saskatoon, Saskatchewan from August 2 to August 6, 1994. The goal of the Canadian Conference on Computational Geometry is to provide a friendly forum for the interchange of new ideas in the field.

This volume contains the abstracts of the 65 contributed papers presented at the conference. In addition invited presentations were given by Alok Aggarwal of the IBM T. J. Watson Research Center and by Herbert Edelsbrunner of the University of Illinois.

The organizing/program committee thanks the invited speakers, all who contributed papers and especially all who attended the conference. We also acknowledge the administrative assistance of Lynn Wolan and the University of Saskatchewan Conference and Catering Services and the financial assistance of the Publication Fund of the University of Saskatchewan.
